Languages and Accomplishments

Python: Linear and Logistic Regressions - Naive Bayes - Random, Boosted and Gradient Boosted Forest Modeling - Text Mining - Natural Language Processing - NumPy - SciPy - Pandas - SciKitLearn - Matplotlib

R: k-Means Clustering - Decision Trees - Algorithmic Classifiers - Data Mining

SQL: Complex Queries - Database Manipulation - Data Interpretation

Tableau: Data Visualization and Comprehension - Dashboards - Statistical Analysis - Filtering Sorting and Grouping

Ruby: Development experience building workers to complete repetitive tasks

Looker: LookML - Dashboard Creation and Presentation

Hadoop: Hive - Flume

Watson: Chatbots - NLP - Text Analytics - Blockchain

SAS: Neural Network - SVM - EM - Linear & Logistic Regression - Classifier Models

Ample experience working with data to drive informed, critical decisions. Specialization within Predictive Modeling. Excellent verbal communication and presentation skills.

Employment History and Experiences

- Junior Data Scientist - Full Measure Education - 06/2016-12/2016
- Professional Poker Player, 2009 – 2017. Live and Online experience
- Yoga Teacher 2011 – Present
- Lab Assistant - Salisbury University 2008-2009. Conducted and documented Bacterial Source Tracking
- Horticulture Manager - Salisbury University 2006-2009: Managed fellow students throughout campus
